**AMCOR WINS REPAIR BID**

Pompton Lakes, NJ October 1, 2019: AMCOR Service Solutions has been selected by a major multivendor repair organization to provide post warranty repair services for a variety of POS products including scanners, printers, mobile computers and laptops used in hospitals in the USA. AMCOR, using its propriety APPS (AMCOR Partnership Program Services) system, will be supplying inventory management, depot repair and custom logistics services to support their customers. Richard Guglielmo, COO and Co-Founder of AMCOR stated, "AMCOR will be repairing thousands of these products yearly as part of this three year contract."

AMCOR is an ISO9001:2015 Certified Service Solutions Company that has been providing inventory management, depot repair, replacement parts and refurbishment services to maintenance organizations, manufacturers and end users worldwide since 1986. Headquartered in Pompton Lakes, NJ, AMCOR has service and distribution centers in El Paso, Texas and Juarez, Mexico, to support a variety of products in the POS, general purpose computing, consumer electronics and transportation industries. AMCOR provides component level repair, and whole unit repair and refurbishment on printers, kiosks, self-checkout equipment, touch screens, bill acceptors, coin dispensers, PC's, consumer electronics devices and complex keyboards.
